

# How to reset your Firefly password

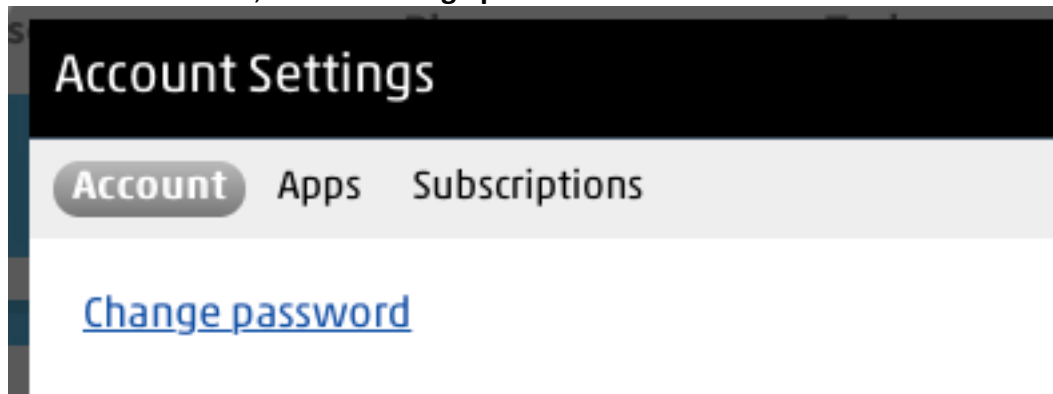

## Step 1

Once logged in with your username and temporary password, click on the small arrow next to your name in the top right hand corner of the screen. Then click **Account Settings...**

## Step 2

On the next screen, click on **Change password...**

## Step 3

Choose a new password by typing it into both boxes. Once complete, click on **Change Password** in the bottom left corner.

A screenshot of a 'Change Password' form. The form has a title bar with a close button. It contains three input fields: 'Current password:', 'New password:', and 'New password (confirm):'. The 'Current password' field is filled with dots. Below the input fields, there is a text requirement: 'Your new password must be at least 8 characters long.' At the bottom left of the form, there is a blue button labeled 'Change Password'.
