

What will I study?

Sociology is a Social Science subject. This is where people study what happens in the world in a scientific and academic way. It's exciting, interesting and relevant to all our lives. You will learn to understand the society we live in, how it is structured and be encouraged to question many issues.

In addition, you will have opportunities to go on educational visits to support topics being covered in class. We also offer a weekly after-school session within the Social Science department specifically to offer you help, support, guidance and revision in preparation for the exams.

How will I be assessed?

Written Examinations **100%**

What advanced courses can this subject lead on to?

Primarily AS and A Level Sociology. It is also useful for other A Levels e.g. Psychology, Law, History, Government and Politics, and Geography.

What might this subject lead you on to after leaving school?

Sociology is useful for a wide-ranging number of careers such as teaching, the Police and Social Work.
